# CERRADURA ESTILO AMERICANO

Las cerraduras estilo americano se caracterizan principalmente por su mecanismo de seguridad intermedia, también conocido como cerradura de tambor o de perno, que ha sido un estándar en Estados Unidos y otras partes del mundo durante muchos años, principalmente utilizadas en conjuntos habitacionales. A diferencia de las cerraduras europeas, que a menudo usan cilindros de perfil, las cerraduras americanas suelen estar integradas en la manija o perilla de la puerta con un seguro ya sea en forma de mariposa (pestillo giratorio) o en botón accionable.
