GANCHOS Y PERCHEROS

Los ganchos y percheros son herramientas esenciales para la organización vertical de prendas de vestir y accesorios dentro y fuera del mobiliario correspondiente. Los ganchos (o perchas) son piezas individuales, típicamente de forma curva o triangular, utilizadas principalmente dentro de armarios, vestidores o recibidores de casa; ayudando a mantener la ropa sin arrugas. Por otro lado, los percheros al ser objetos más grandes, incorporan múltiples ganchos de apoyo para colgar simultáneamente varios artículos como abrigos, sombreros o bufandas.

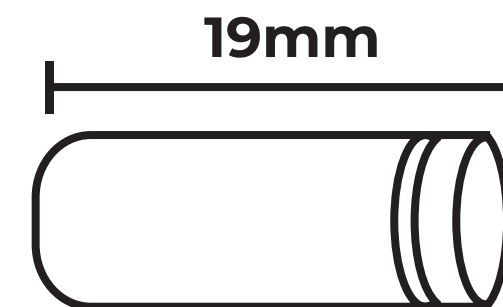

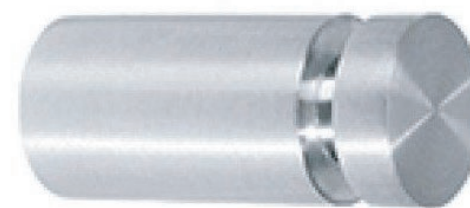

GANCHOS Y PERCHEROS

GANCHO PERCHERO

MOD. IN.14.177
ACERO INOXIDABLE
