ZOCLOS Y PATAS

Los zoclos así como las patas son componentes clave en el diseño de muebles y cocinas en el día a día, cada uno con funciones distintivas. Los zoclos son franjas normalmente de aluminio o PVC colocadas de forma horizontal en la parte inferior, ocultando espacios y brindando una vista estética y limpia a la habitación. Protegiendo contra la humedad y el polvo así como facilitando la higiene al evitar la acumulación de suciedad. Por otro lado, las patas se encargan de elevar el mueble del suelo para proporcionar soporte y estabilidad, así como facilitar la limpieza inferior y la ventilación. Ambos, aunque con propósitos diferentes, son esenciales para la funcionalidad, durabilidad y apariencia general del mobiliario y el hogar.

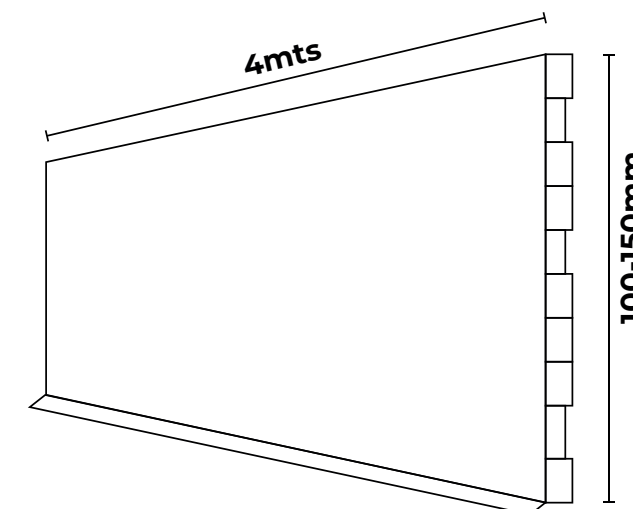

ZOCLOS

PVC ALUMINIO

MOD. ZOCLO PLATA
PLATA
SKU: 132527 / 133378
